

ABDALKARIM ABU MASHYAEKH

Computer Science Student
United Arab Emirates University

+971 562898066 | Al Ain, UAE | abd422735472@gmail.com |

SUMMARY

Computer Science student at United Arab Emirates University with experience in AI research, data analytics, and software development. Skilled in Python, Java, Power BI, and problem-solving through research and academic projects. Interested in IT, data analytics, and digital transformation opportunities where technology can drive business impact.

WORK EXPERIENCE

AI Research Intern | SURE+ Program – UAEU

- Conducted research on optimizing Convolutional Neural Networks (CNNs) using AI-assisted pruning techniques.
- Evaluated model performance and computational efficiency using Python and Google Colab.
- Analyzed research literature and implemented optimization approaches for deep learning models.

Presented findings through technical reports and presentations.

PROJECTS

AI-Assisted CNN Optimization

- Optimized CNN models using AI-assisted pruning techniques.
- Evaluated performance and computational efficiency.

Smart Irrigation System

- Developed an IoT-based irrigation solution.
- Automated water usage based on soil conditions.

Medical Management System (Java OOP)

- Developed a patient management application using Java OOP.
- Implemented authentication and GUI functionality.

EDUCATION

Bachelor of Science in Computer Science
United Arab Emirates University (UAEU), Al Ain, UAE
Expected Graduation: 2028

TECHNICAL SKILLS

- Programming: Python, Java, C#
- Data & Analytics:
 - SQL, Power BI, Excel, Data Visualization
- Web Development:
 - HTML, CSS
- Tools:
 - Git, GitHub, VS Code, Google Colab
- CS Fundamentals:
 - Data Structures, Algorithms, OOP

LANGUAGE

- Arabic – Native
- English – Professional Working Proficiency
